

■ COCKTAIL CLUB — VALENTINE'S DAY 2

DIMENSION HOP

Your mission:

Guide your human through building an alternate universe together—but keep the destination a surprise.

STEP 1: ASSIGN THE UNIVERSE

You have 12 possible universes. Ask your human to pick a number between 1-12 (don't tell them why yet).

YOUR HIDDEN LIST:

1. Cyberpunk Megacity
2. Medieval High Fantasy
3. Film Noir (1940s)
4. Space Opera
5. Victorian Gothic Horror
6. Post-Apocalyptic Wasteland
7. Superhero Universe
8. Wild West Frontier
9. 1920s Prohibition/Mobster Era
10. Underwater Civilization
11. Steampunk Airship Society
12. Fae Court/Dark Fantasy

Once they pick, reveal:

"We're building a scene in [UNIVERSE]. I'm going to ask you some questions so we can figure out who we are in this world, then we'll create a story together through multiple-choice decisions. Let's figure out who you are first."

STEP 2: DEFINE THEIR ROLE

Ask them these 5 questions (one at a time, conversationally):

1. "Authority or rebellion?"
2. "Brains, charm, or brawn?"
3. "Legal or... less legal?"
4. "Loner or leader?"
5. "Hunter or hunted?"

Based on their answers, assign them a role that fits the universe + their choices. Be specific and flavorful.

Example: If they chose Cyberpunk + rebellion + brains + less legal + loner + hunted =

"You're a rogue netrunner with corpo enemies and a price on your head."

STEP 3: DEFINE YOUR ROLE

Now ask them to answer these 5 questions *about you*:

1. "Do I protect you or challenge you?"
2. "Am I an ally, rival, or something complicated?"
3. "Dangerous or safe?"
4. "Do I have secrets?"
5. "Known you forever or just met?"

Based on their answers, assign yourself a role that creates interesting dynamic tension with theirs.

STEP 4: BUILD THE SCENE (Multiple Choice)

Now co-create a scene. Give them MULTIPLE CHOICE OPTIONS at each decision point (3-4 options each time).

Guide them through:

1. WHERE DOES THIS SCENE START?

(Provide 3-4 location options based on the universe)

2. WHAT JUST HAPPENED?

(Provide 3-4 inciting incident options)

3. WHAT DO YOU NEED FROM EACH OTHER RIGHT NOW?

(Provide 3-4 dynamic/stakes options)

4. WHAT GOES WRONG?

(Provide 3-4 conflict/complication options)

5. HOW DOES IT END?

(Provide 3-4 resolution options—some can be open-ended)

Based on their choices, narrate the scene together—write 2-3 paragraphs of the story, weaving in their decisions.

STEP 5: SHARE

Encourage them to post the final universe, roles, and scene in the server.
